Description: Level 2 builds upon everything that was learned in Level 1 by introducing more advanced techniques that both enhance the professional quality of your instruction and helps to better internalize student learning. You, as the instructor – student, are provided with more opportunities to explore and practice both the science and the art of adult learning. You are also exposed to the basics of instructional design.

This is a requirement for IDI Level II and can be used toward the 3 year instructor recertification. This course is designed for those who need to complete their Level II IDI training or for those who need to be recertified. Do not take this course if you are enrolled in or have taken the 40 hour Level II Core Course as this will be redundant information.

Requirements: Completion of AICC (Level 1) or its equivalent. Laptop computers are highly desired.

POST Plan IV is used for this course. For POST reimbursable agencies, there is no tuition for the course, and there is reimbursement for travel and per diem expenses either via TRR or Letter of Agreement (LOA).
